File Note

From: DRS
Re: NCCH Master File
Matter No: 526432
Date: 26 September 2006

Telephone call to Peter Rowland for Foot Law & Co.

I confirmed that we had drafted him a letter in response to the conversation he had with SJH re Reverend Pat Comben's letter to the Northern Star.

Peter confirmed that the letter was a response to correspondence forwarded to the paper by Richard Campion and paper head phoned Reverend Comben for comment.

He said notwithstanding but however they had agreed to withdraw the article from the paper pending further correspondence between the lawyers.

I confirmed that SJH had dictated a fax which would be sent to him anyway in respect to these matters and that SJH was in litigation discussing the matters further at present.

He said that he would be willing to informally conference the matters from 9 October onwards and asked that I pass that on to SJH.

He confirmed in his opinion that we had very weak legal arguments however notwithstanding that they would informally conference the matters.

I advised I would pass on his message to SJH.

He confirmed he was sending through a fax to us this afternoon.

Units engaged including dictation of file note - 2.
