Att: Mr Howard Harrison

Dear Howard,

Greetings from Drummoyne.

I am gradually working my way through the correspondence which accumulated during my two months absence in Rome. I will contact you shortly concerning several matters. However I wish to forward to you the attached correspondence without delay. It concerns the Foster/DG situation. You have copies of all the documents referred to.

You will note that I am willing to meet with Mr DG again. Inevitably the question of financial compensation will arise and I will indicate that such an arrangement should be done through appropriate channels ... generally involving two sets of solicitors. In this particular situation should I work through you or through Pat Mullins in Brisbane? Then there is the question of notification to CCI. I cannot recall whether or not we did this when the matter arose last year. Also, I guess that CCI will want to bring their people (Ebsworth) in on it. (How many solicitors does it take to change a light bulb?!)

I will be in touch soon.

Regards.

Michael
