14 April, 1986

My Lord,

I acknowledge your letter of 3rd April. I note the fact that $3+15 = 18$ th April, and since that is the date from which all else flows, it is important.

I am sorry that you did not see fit to honour your promise of six months ago, that you would advise me of complaints as they arrived, rather than accumulate them and present them to others.

I obviously now wish to see the material upon which the Council made its judgment. In particular, I wish to see, with date, name and contents, anything you have received in the past six months.

Sincerely,
Rex Brown
