Dear Joe

I am writing regarding a complainant DK [redacted] from Cairns who has been touch a number of times, first of all with general enquiries, then asking more detail about Towards Healing. I am attaching some summaries of conversations with him up until this point. He has been visited by Jason Parkinson on his marketing tour of QLD but he does not wish to be part of Parkinson's legal action. He does want financial recompense and I have sent him a copy of Towards Healing. He claims that Parkinson said to him that he had 9 or 10 mplainants on his book from Cairns. I have no confirmation of that.

At this stage I have not taken up this matter with Towards Healing but my intention would be to do it through Michael Salmon given all the changes taking place in the QPSO office at the moment. I am sure Michael would be happy to run with it but I would need to discuss with you what the process would be as far as the CCI's involvement is concerned.

No assessment has been carried out although I have no doubt that the events did occur. I am presently waiting for a full Statement of Complaint from DK [redacted] which he did also for Jason Parkinson. I have also sent him a copy of the police release statement which is standard for Towards Healing. He is aware of the process. Perhaps we could have a phone call sometime about this. No psych assess as yet.

Many thanks.
