Dear Alex,

Greetings from MRRC! Thank you again for visiting yesterday - I enjoyed seeing you and Gerry very much. I did leave a message on your phone this morning - it was deliberately vague as I was wary of what I say on the phone.

Alex, I have thought about what we discussed yesterday. I still have no recollection of what we spoke about concerning DK. However, by no means am I trying to imply that this person is lying deliberately for his own advantage. Through my work with Gerardine and Tony, I finally realised that my actions or behaviours, while I thought they were simply signs of friendship and affection, actually made others very uncomfortable and I was blind to this and could not recognise this discomfort.

While I do not believe that I did what has been suggested, I know/believe that I must have done something to make this person very uncomfortable. So I am very sorry that I caused this discomfort.

If appropriate, could you convey my best wishes when you speak next to this person. Please let him know that I remember him well and ~~more~~ my memories are all very positive. Please pass on my apologies for any hurt or discomfort was caused by anything I did and I certainly wish him all the best for now and the future. I will leave it up to you Alex to decide what to say - how much or how little of the above - and

Thank you for doing this.

I heard today from the Catholic Chaplain here that Robert Fuller, a priest from the Archdiocese of Sydney, is in Darcy 2 - the reception pod - and hopefully might be transferred to pod 16 (my pod) soon. Greg Walsh was his lawyer. Robert and I were in the same class at Marcellin, Randwick from Third Class to Fourth Form (Year 10). He then went to Parramatta Marist High for the last two years of secondary school as his family moved out to the west. Robert's uncle was Joe Meaurio!

I have also included a note for Gerardine and Tony. I want to let them know personally how well I am copying thanks to their great work at Encampment.

Thanks for doing this for me Alexis. All the best for the rest of 2010. I hope you enjoy the cooler weather of Autumn when it arrives.

All the best for now,

Ross.
