EE has been in employment with Mr. Hellier as from 7th July, 1970 and will be 18 on the 22nd March, 1972.

Sch3(12)(1)

EE he has been to see her on an average of once a month since being placed here. There have been some longer spells between visits but this has been due to the fact that EE did not wish to go.

EE wishes to return to his mother's home as from his 18th birthday and has been advised that he may do so. He has been told that he may call at the Office to have his trust account savings transferred to his personal account and he desires that the Department should furnish his tax return for the year ending June, 1972. His employer Mr. Hellier will send the tax stamps and his pocket money book to the Department and EE will call after 30th June, 1972 to present further tax stamps or group certificates so that further income may be included in his tax return.

it is recommended that as from tomorrow, 22nd March, 1972 he should be released from care and protection.
