Record of Meeting with YJ

Following expressions of concern from two teachers about seeing YJ in his class alone with a child and once with a child on his knee, I called YJ to my Office.

During the interview I explained what had been reported and asked for his assurance that nothing untoward had occurred. YJ stated unequivocally that nothing had.

I then mentioned that any physical contact with children was totally unacceptable and that this should never happen again. I pointed out that he placed him and the School at great risk if this type of incident was allowed.

YJ gave me an assurance that this would never happen again.

The tone of the meeting was most cordial and YJ stated he appreciated this being drawn to his attention.
