Subject: Re: important question

Thanks Kath. I guess what I'm suggesting is that correct contact details should be listed on the Swimming Australia and NSW Swimming websites. It can be quite daunting to contact an institution in this context, and to receive no reply can be distressing.

I have had no contact with anyone else, so do not know for sure, but given the profile of the Royal Commission, there may be victims of Stephen Roser - and I believe there were many - who attempt to contact the club. Ensuring details are up-to-date will make this process simpler for everyone.

No problems, sorry for the no response on the first email I got from deb second hand it did not include your name or email address. And I had been contacted by the royal commission by phone so I assumed it would have been related to that. This email is the best to get me on.
Thanks kath

Sorry to bother you with this and the next email. I just feel you should have a copy.

I just got your details from the NSW Swimming website. Could you please verify that you are the correct contact person for Scone Swimming Club and also whether or not that club still awards the Stephen Roser Breaststroke trophy at the annual awards? This was something that began when I was a member in the mid-1980s and I would like to know if it continues? Thank you.

Regards,

AEB
