Dear Margaret,

On behalf of the Eastern and Central Sexual Assault Service I would like to thank you for your presentation at the recent seminar "The Use of Drugs in Sexual Assault".

The numbers attending the seminar clearly indicated that there is a broad based interest in this topic, so even if we did not come up with a lot of answers, hopefully the issue is a now a little more on the agendas of people working in the field.

Your paper was particularly well received and provided the participants with excellent information around the issues relevant to court cases where the survivor has been drugged.

The seminar was recorded on video and I will ensure that you get a copy.

Yours sincerely

Mark Griffiths.
