Glen,

I had a call the other day from Carmen McMahon who asked if we could provide her with a copy of her transcript from the committal. I explained that there may be an application for separate trials which would most likely further delay proceedings. Can you give her a call or get one of the Vocal girls to call her and speak to her re same. I also went and spoke to AJE Carmen told me that he had been depressed of late and that I should talk to him. I spoke to AJE and he was depressed. He hasn't told his son yet about what happened to him and this is obviously playing on his mind. He was on medication to improve his outlook but has gone off it. Seemed to be fine when I left him. Also told him about separate trials and that didn't seem to worry him at all. Also requested a copy of his transcript and I told him that I would speak to you about it. Also tried to ring AJD in Perth but he was out. Is there any further news on what is happening?  
Cheers  
Rog
