

DID YOU KNOW?

You can call Jewish Care Victoria if you require support for childhood sexual abuse.

The Rabbinical Council of Victoria proudly endorses Jewish Care's Counselling and Service Coordination programs for people experiencing a range of issues including domestic violence, grief and loss, mental illness and sexual abuse.

We recognize that it can take years and often decades before survivors of sexual abuse feel confident to talk about their experiences.

Jewish Care provides trained and fully qualified professionals to aid individuals and families with sensitivity and discretion.
