My view

- Cannot withstand cross-examination
- Is not wanting to talk about it beyond most general of conversation
- Will not be able to cope with cross-examination
- Extra inconsistency re "only in the afternoons" (Not crucial).
- No specificity
- No corroboration
- Possible contamination
- Inconsistencies with others
- New disclosure re "bottom".
- In my view she will not be able to adequately give details at the moment, in the light of the other issues to satisfy a Tribunal of fact BRD of any specific incident.
