IN-CONFIDENCE

Barbara

I have previously advised that an AAFC PLTOFF [who was supporting cadet WOFF CJE in her complaints about sexual relationships with LAC (AAFC) Adams] had made a complaint about bullying and harassment to COMCARE related to her interaction with more senior AAFC staff handling the matter. As a result COMCARE called my staff seeking information. Because the matter involved a minor, and in accordance with the privacy laws, my staff requested that COMCARE put their request in writing.

COMCARE have subsequently issued the attached formal request for documentation related to this matter. The Air Force COMCARE liaison officer has been advised. Cadet Branch is getting the required information from AAFC staff.

My understanding is that the PLTOFF no longer considers that there was bullying and harassment involved. She does side with CJE's mother, CJO in being very critical of how AAFC staff handled the matter in the initial time period before the matter was advised to CB-AF.

At this stage we expect that COMCARE will allow the NSW Police investigation to be completed and will maintain a watching brief until the matter is closed.

SQNLDR Hatch continues to provide support to all members of the family with updates. She has confirmed to day that CJE is now scheduled to receive professional psychological support.

DGCADETS-AF provided additional documentation to NSW Police as they requested on 12 July, and further documentation will be provided when received from the AAFC.

Dennis
