

Correction to Paragraph 57

57. An email containing a message from Michael Hill dated 9 April 2001 refers to the "*appropriate protocol*" being put into place, and the Queensland Police were informed of the complaint [TB111 CTJH.053.07161 .0461_R]. I also understand that Butler was withdrawn from all contact with students from the time the allegation was made [CTJH.053.70016.0224].

Correction to Paragraphs 116 and 117

116. Prior to my appointment as Province Leader, I became aware in 2013 that the police were investigating allegations made by former students from Marist Brothers Hamilton that they had been abused by O'Sullivan in the 1970s.

117. Following the 2013 police investigation, in July 2013 O'Sullivan was charged in relation to 10 counts of indecent assault (the **2013 charges**), relating to incidents involving former students from Marist Brothers Hamilton.

Correction to Paragraph 169

169. I have also identified a number of documents in the tender bundle where a secondary reference is made to a claim that a report of abuse was made contemporaneously. These include:

(a) a police statement made by a complainant dated 1 September 2014 [TB202 NSW.2070.002.0441_R], where the complainant says that in 1967 he reported an incident involving Cable and himself to Br Kevin Willits, and that Cable was removed from the school "within days" of the incident;

(b) a police statement made by Kevin Balk, Michael Balk's father, dated 2 September 2014 [TB203 NSW.2070.002.0507 R], saying that in 1967 he spoke to Br Kevin Willits, the then Principal of Marist Brothers Pagewood, about Cable. The content of that conversation is not clear. I note that Br Willits passed away in May 2016. At the time of his death Br Willits suffered from dementia and I am unaware if he ever knew of or responded to the comments made by the complainant; and

(c) a question put by the police during an interview with Br Wade on 8 April 2014, as to whether CQS father approached Br Wade in the 1970s about a classroom incident involving his son and Cable at Marist Brothers, Hamilton [TB193 CTJH.053.70050.0039_R].
