

In the Past

In the past their have been boys tied up with ties and raped the boys involved this were DFA and DFB

DFB Generally they will stick a dildo up peoples who are the same age and your bottoms and some times they hold you one down and try and see how far they can stick it up the per bottom. But another thing that ~~the~~ they do often is hold people down lift their legs up in the air and pretend to have sex with the pers at this time both people have the clothes on and they also do this wh lying on top on the person. ~~There are these~~ Their are these chairs on the landing and people sit and talk on these chairs and some times they will come out and sit on you and bounce up and down. That is all that they used to do.
