

The most serious things done to me was when they got me in and started ficking me for fun I guess. I remeber it was the se day where [REDACTED] and [REDACTED] was upset. I was first when I was sitting on the landing talking and enjoying my self, they grabbed me and started to tie me on the floor and they grabbed my legs and arms and a boy on top which I think was [REDACTED]. He shoved a long wooden object ~~stick~~ and had a handle (i looked like this ). This object was used many times on the owners of this object was

[REDACTED] and I think [REDACTED] borrowed it off [REDACTED]. Some of the victims were [REDACTED] because usually the other year qrs told them to ^{annoy} ~~do~~ it), [REDACTED] and often other smaller kids. Some of the things they done were were where littaly the person under plants would rip in half, sticks, broken of chair handles, were used to poke and hit people. They tied arms and legs together and used to put them in a laundry bag tie it up and hang you in the bag somewhere. The main people who did it was [REDACTED] (but wasn't there on the incident), [REDACTED] [REDACTED] and [REDACTED] (but he wasn't involved in treatment), [REDACTED] and [REDACTED] basically didn't do anything when I saw, but for a couple of times where they were forced to do it by [REDACTED] or [REDACTED]. I was usually the victim but I was mainly the witness.
