

Standing meeting min.

Kate Pearce

Pauline O'Callaghan

"C"

9-22

11/10/00.

KP : I'll be away o'seas from Feb - July 2001

PO : Not so worry; if there are any civil proceedings, court can be told of your availability.

Went spoken at to that effect.

Discussion re conflict of interest. I said I didn't think I had a conflict I had a brief to help Kate & protect her if necessary

If there are civil proceedings, I'm unlikely to act as inquests lawyer would.

Explained to Kate about vicarious liability. I said I wouldn't show Kate's statement to others who give statements.

She saw REDACTED on 29/8/00. He's a fibber & embellishes things. Saw him with psychologist in training. What he said was embellished on paper. If he said people were dressed but on paper he changed this.

Ask Kate:

Was she aware of August incidents/statements?

If so, when? She spoke to victims on 11/8/00. But only saw statements last Friday (6/10/00)

When did she take the statements she sent to Cujes on 7-9-00? See on them.

When was Docs first advised? 7/9/00.

When did ^{CLB} add the bit at the end of his statement of 11/8/00? She thinks the same day.

She + Paul saw Docs

Then sent all statements the next day.

McDuff

Ask for direction pursuant to s 22(7B)(b)
+ then give her the statements.
Get receipt.

8/9/00 - last day of Term

Also using dildos through clothes.

Check whether "penetrating to lower sex" is
sexual assault under Crimes Act.

Kate is concerned that, had it not been for her
investigations carried out on her own
initiative, nothing would have been done
following the 11/8/00 incidents.

She's concerned that Peter + Rob especially
should have done more. "It wasn't my job
to investigate"

She thinks that ^{Peter would have had} ~~there were~~ reasonable grounds
to suspect on 11/8/00, because he was
aware of more incidents even then.

Mayne advised Emergency.

She posted statements. She rang Emergency to check
Emergency didn't read them till last week

about 3/10/00

thought animals. They had
but he hadn't read them.
