Hi Bert,
how are your travels? Australia is a big place!

So, it looks like I'll travel to Mangrove for the meeting with Terry on Thursday April 2nd. Before making my booking I wanted to ask if I could come and meet you and if so when? I think you said you are away until Wednesday. In that case, I could visit you on Friday before flying back to Melbourne. You said you are in Darlinghurst but I see on your signature a Frenchs Forest address. Just wondering, as I finished school at Forest High.

Next question: Talking with Swami Ratnashakti today about Mary Smith. She asked if we can trace her identity via the email address. Can you ask your legal people about getting id info from email providers when the person uses their system for illegal actions. Even if we want to take legal action against her we cant, because we don't know who or where she is.

I hope that I can meet you next week. Your steadiness, clarity and professionalism are an inspiration. I had a long talk this afternoon with Tim Clark, the first person to post on fb. Although I heard at the time that there had been sexual abuse I never knew how appalling the whole place was and the depth of criminal activity and disgusting exploitation and psychopathy. I guess Haribodh and Poornamurti have already grappled with that, and Atma was there at the tail end although she had no idea of the things I told her after speaking with Tim. So, I'm also working through my own inner responses.

om, Ahimsa
