## INCIDENT/INJURY/REPORT

Dan Brkic

Concerns

Back page – no date

Called Dan. He worked on our computer/his brother gave [CIE] drum lessons 2010 and I was acquainted with his mother.

I rang him because I asked [CIE] why he attacked Dan. I did not allege that he went into toilet while he was doing a wee and when he finished he played with himself.

[CIE] had said that “he was so long in the toilet, Dan went in to see why and found him playing in the urinal. Dan said how disgusting. “ he has told me this twice.

I rang because I wanted to check this was the case as this was a bad behaviour incident and I wanted to deal with [CIE] using the QWERTY board and discuss it. It seemed a little thing for [CIE] to get upset about.

He cut short the conversation.

I was not notified of Dan’s complaint against me and it is entirely wrong. [CIF]

I also have not had any incident report on this.

- The last paragraph is concerning. This behaviour has to be dealt with. I usually get him around 4 o’clock – if as with Kiama incident he has hurt someone – he goes to his room – the door does not have a lock. We don’t have to lock [CIE] in his room
- Bed time is 7:30-8:00 – tea etc. He cannot be locked in his room all day and night.

Isolation after a bad incident is all we can do.

It is not all day or all morning and I talk with [CIE] about it the next day if I can. It is a discussion of what to do when upset.

Dan is undermining, not accurate with his facts and I wonder why? This account is not true
