9.6.2012

To whom it may concern

Incident report 13.1.2012

I have asked the Disability Trust for more information on [CIE]'s incidents which I did not get. I have asked for this consistently

If I had had a copy of this incident report I would have known that [CIE] was not liking what he heard.

Putting his left hand in his mouth is entirely unusual and would have had me asking [CIE] what it meant? I may have found out earlier what was going on with Royce.

There is a lie in this report. "His mother commented that he doesn't want to go home. Mum has been mean this week".

This is in holidays. We have a great time in the holidays and generally do a lot of cross country biking. This is not a true account of what was said.

I would not say "I was mean to [CIE]".

It is not accurate recording of what was said.
