

DISABILITY TRUST 20/6/2012

CIF

Complaints

REDACTED

20/6/2012

To whom it may concern,

As a result of my son's complaint he was sexually assaulted by R. Comber while employed by the Disability Trust, I have the following complaints to make.

During an interview with Susan Booth in regards to the beginnings of a behaviour management plan, I made the comment that R. Comber was not encouraging CIE to interact with REDA. Concerned to help R. Comber use techniques that would help the staff, I asked to discuss the problem with R. Comber. This did not happen and as a consequence CIE continued to be isolated from the group.

In regards to Incident report 13/1/2012, it is on record I have asked consistently to be advised of behaviour and transparency as to what took place. This did not happen and if I had of been aware of the physical communications of CIE in this report I would have been able to discuss them with him.

There is a lie in this report, I did not say "I have been mean to CIE this week." This is the holidays, something CIE and I both value as we often bike cross country, we enjoy ourselves.

Incident report 11/1/2012, Again I was not told of the full extent of the behaviour, in regard to REDA I was, but not Royce, this goes for the dolphin watch outing as well. Again there was a failure to inform fully, I wonder if the Disability Trust realise the parents are the experts on their child and any failure to discuss the incidents or a lack of knowledge about it can cause the behaviour to become entrenched and more difficult to deal with.

Dan Brkic, 9/6/2012. This is the most dismaying of the whole lot. Mr Brkic was known to our family as is his sister and mother. I have rung him before on matters to do with his computer business as he was our technician.

I was not told there were allegations I locked CIE in his room by the Trust. CIE has no lock on his door. There was no notification there was a discussion of myself and the trust did not ask me my side of the story.

The note indicates Mr Brkic misinterpreted my phone call and was not accurate in reporting what I said. Why was this? Why was I not contacted? I consider Dan Brkic undermining and slanderous at the worst. He obviously does not understand a parent's concern for their child.

Yours sincerely CIF
