

Got scared he would hurt me

Did he?

Different scenario, he was bullying me to assert my homosexuality.

How did he do that?

He said he was friends with me and wanted a sexual relationship with me. I do not at all.

I am not homosexual.

When did he say this? - biking to St Georges Basin.

I turned to go home, he followed me. Dad saw him defend himself for coming home early (They came back early because ^{CIE} turned and came back)

Zero going to Disability Trust when he is there.

Dad was friendly even when he said I was to have a relationship with him.

He has decided to get you to allow to have great time sexually finding feeling good.

Cranky he tried it on me.

Just get him gone.

^{CIE} 's account of Tuesday afternoon

Tuesday night. 20.3.2012

- New worker, Royce.

Did not like the look
CIE gave him when
 he turned up. CIE
 was not pleased.

Arranged for them to go to St Georges Basin on bikes.

They came home early. 4.30 pm
 I said about it being early.

Royce said that at a cross street CIE
 just turned around and came back. I
 asked him what did he do - he said
 he followed him.

After this visit CIE displayed distress
 signals. I got the ORWERTH point speller and asked
 him if he liked the bike ride. He
 pointspelt twice. You come with me next
 time.

I asked him why, he pointspelt
 "The man has form from many times
 before"

I asked him what that meant - he
 displayed extremely upset behaviour.

I calmed him down and told him to say
 specifically what was wrong.

He told me Royce touched his willy
 in the toilets. I asked how long has
 this been going on - he said (pointspelt
 "many times". I asked him why he had
 not told us. He said "I felt it was my
 fault because I was aroused" CIF

The police are going to want to know dates, times when it occurred. Do you remember when it first started.

Last year in the centre in holiday care. Every time he found time to do it. Go to centre for lunch and morning tea.

(He said^{CIE}) said he wants toilet, Has a clear memory of what he said.

Then what happened?

Very upset he said that Sandra gave approval by saying "Just take him in, go with him."

Centre based activity that day. He said "Here^{CIE} get a load of this." Then he tried to have some fun by feeling me for a while. Dreadful decision, he felt my penis.

What did you do?

Not know what to do.

Did he say the word "said" in he wants toilet?
