

TELEPHONE CONVERSATION WITH GG
13 JUNE 2008

I spoke with GG today. He said he hasn't been able to write his statement yet as he has found it very hard. I asked did he want help with this as I could arrange for an ICP to help him but he declined. He said if he needed it typed, he knows someone who can do this for him.

He said he would go to the library today and write it out and fax it to me today.

He asked if I could help him with accommodation as he is doing it hard, living on the street. He said he has been told the only accommodation TSA could offer him is in Brisbane. He didn't want to move to Brisbane as he has a daughter on the Gold Coast who he sees every week. I said I would make a phone call today to see if there is anything available nearer the coast.

His phone number is REDACTED
