

28th November, 1980

REDACTED

Dear Mr. RED
ACT,

I refer to our recent telephone conversation concerning your statement that there were personal records of a number of former children in care in buildings at the old Salvation Army property at Riverview.

I have written to the State Social Services Secretary of the Salvation Army and suggested that an officer of this Department and an officer of the Salvation Army might inspect the buildings with a view to this Department taking custody of the records and destroying them.

Yours faithfully,

Robert Plummer
Director
