LETTER DATED

14/9/98

THURSDAY A.M

Spoke with Amanda this morning – she is extremely happy with [BXJ]’s efforts – wouldn’t be [???] she indicated – talked also of Noel – [???] quote “we’ll get him” – not sure yet what will happen but she fully realizes what groundwork went into his dealings with [BXJ] + its cost [???]/ not to mention that he was paid for the privilege. I believe he was to [???] (or is away now) [???] the team to [???] Youth Cup. Whichever that is this time. It appears Noel has been conducting a smear campaign for years of [BXJ]. [BXJ] discussed matters that go back to 15 which implicates Noel’s interference – albeit indirectly as that point but harmful to [BXJ]’s reputation.

How sad to realise that this person who was trusted with your daughter used his position for himself with no regard personally or professionally in her [???] at her most vulnerable time – but we are not in a hurry to [???] this – justice will come one day for everyone involved.

[???]

[???

18/11/98 ← LETTER DATED

That could only have come from one source! For that reason I suppose what [???] talked about must proceed can't do [???] any damage [???].

There has been some calls recently regarding our mutual problem. Bob Giltinan is now in the picture and very concerned, did Amanda phone you? We have not done anything...yet! Very cautious. All [BXJ] s tennis pursuits have had a positive image this last 18 mnths. Had a call last wk from the one in question offering squad involvement for [BXJ], what a change, but do think the heat is being applied. I spoke glowingly of all she is doing. We know he has been the source of bad comments for [BXJ] this last 12 mnths, unjustly so. [BXJ] is quite open with us and with those who might help if that option is taken. But she is not openly commenting (legalities must be attended to first). If you wish to call me on this issue [BXD] please do so. Wonder what your thoughts are. Are you planning [???] back home at all.
