

**NOTE FOR FILE
JOHN WILLIAMS MATTER**

11 JUNE 2003

I received a telephone call at 12.01pm today from John Williams as he had had the HM's letter read to him over the phone by his solicitor.

He was disappointed with the response but there was more a sense of resignation than anger in his tones and comments to the outcome. He said several times that he could not believe that T Cuff or REDACTED had not verified his allegations. "Someone is not telling the truth".

He indicated that one of his options was to get in touch with REDACTED or REDACTED also Old Boys whom he alleges also suffered the same experience with CLI and get them to also make the allegations to the School.

He felt that he would have great difficulty in getting over this situation and did not feel that he could go to the police although he did not dismiss that option totally. He mentioned that he had tried to speak to the Headmaster just prior to his call to me and that he would try again later today. He wasn't sure if he ever wanted to visit the School again.

I again expressed sympathy for his situation and suggested that perhaps he should meet with his therapist to discuss his circumstances.

He commented that there was no need to speak to his solicitor as there was nothing more that he could do.

We finished the conversation on the basis that he would try and ring the HM later today presumably to discuss the outcome and maybe arrange a further meeting.

The conversation lasted only approximately 5 minutes.
