Good morning Andrew,

Further to our meeting last week regarding CLC .

There have been continuing incidents of harassment in the boarding house, details of which CLC briefly outlined in our conversation last night. During our conversation I actually heard boys heckling CLC outside of his room. This occurred at approximately 5.45pm. I spoke with Andrew Mansfield last night to inform him of the incident. At this stage I have had no further communication with Andrew nor have I spoken with CLC this morning.

CLC has also had contact from DFE informing him of certain aspects of a meeting you allegedly had with DFE yesterday, information which CLC has found unsettling.

CLC has spent some time in the Health Centre this week with a "massive headache" attributed to a lot of computer work, however EAE and I agree this could be stress related.

Could you please give me a call this morning to discuss these recent events?
 EAE and I would also appreciate some feedback regarding your investigation into the various incidents that have occurred over the past few months and measures that have been taken thus far.

With thanks and kind regards,

EAG

Did the call happen? Evidence from Email traffic suggests it did.

Was it given? Evidence from Email traffic suggests it did.
