DATE: 11/8/00
NAME: CLB
HOUSE: School YEAR: 9

INCIDENT:
I was sitting on the landing when they grabbed me and drag me into the year 10 dorm and was swinging me around then they pinned me on the ground and tried to put boot polish on my face I tried to fight them off for some time but they eventually got me and smered it all over my face. At the time of this they one was trying to rape me by lifting my legs in the air and was pumping at my butt with his front area he still had his pants on and I had my pants on. then he stoped and then they took my pants and shoes off and let me go by this time I was pretty angry and ran into the year 9 dorm and grabbed a plankle of wood and was swinging it around at them I told them to stop raping people and me and I said this because this wasn't the first time that they and more have tried to rape me or anyone else.

The people involed in the incident were: DFC
CLA
DFD

One of them made a dildo in wood tech and they use that to stick up people's butts. but I heven't seen them do that for awhile and this didn't use it on me today.
