

- I've seen them do things and heard things that they do to anyone younger or smaller than them physically.
- They are very strong which ^{has} given them power over us since I was in year 7.
- I don't know ~~whether~~ whether this is all happening because **DFA** and **DFB** were abused like this when they were young but they always look as if they're trying to prove something.
- **DFB** always copies **DFA**, anything **DFA** does **DFB** does as well.
- The "Raping" began in ~~year~~ their year at the ~~end~~ beginning of 2000. This year they would just pretend to have sex w/ their victim, then they would get harder and faster. The victim from what I've seen, has never enjoyed it.
- They then took the "joke" even further by using p. sauce handels and cricket bats ^{or} any pole type thing they could find. Then they began to make "dildos" at the DT Lab. **CLA** got it the most. ~~But~~ ^{dorm} our ~~dorm~~ would hear these screams, we would all run to see what was happening then we would see **DFA** shoving this dildo or something up **CLA** Arse! He would ask us to help him, but we couldn't. They were too strong. And if we did even try they would do that thing they do* to us as well.
- Soon if we heard one of **CLA** screams we would just say " **CLA** getting raped again" and walk away or ignore them.
- I personally think that **CLA** got it 10 times more ~~over~~ than what **CLB** did.
- When I was in year 7 **DFA** had an overwhelming power over us. If we were sitting in a chair all he'd say was MOVE and they'd be off and he'd have a seat. He disobeyed the rule of X-POLLINATION ^{from} while enforcing it on others younger or weaker than himself. To make things worse, **DFB** came to the B-HOUSE

copied [DFA] after proving his strength to us Juniors.

- Before me and some others began a rebellion. We simply said no! to their demands and if they used physical strength to enforce their statement. We would just ignore them and walk away. ~~we'll always fight~~

- [DFA] and [DFB] became good friends with [REDACTED] and [REDACTED]. So the year 11's ~~can~~ just couldn't put them, even as dorm monitors.

There was one instance where [REDACTED] (Yr 11 sc) told [DFA] to sit outside his area. But [REDACTED] just told him that he could go which showed that the Yr 11's had no power unless they told Mr. Scott. Which they did.

- ~~wasn't~~

Personally I'm glad that Mr. Scott was told about everything but I think the Yr 12's weren't very happy about the boys being suspended. And I also think that if [DFA] and [DFB] weren't in sick bay that day, then they would've been the main culprits easy.
