Lieut. Colonel P.Cairns,  
T.H.Q.  
SYDNEY

Dear Colonel,

This letter is in response to that received from you a few days ago, to do with making an apology to JD JD .

In discussion with you concerning the above, I stated my willingness to sign a letter which you would compile, if it meant preventing further action being taken by Ms. JD .

However, the information in the letter is to my mind not a true account of the event. My recollection is that Tiffany was present as a support for her friend, whose name eludes me at the moment. JD made comments as the discussion proceeded, which I took to be made to back up her friend's remarks.

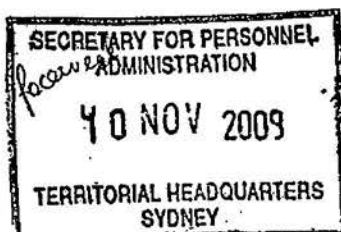

If I had thought JD comments were given as a definite accusation against John Lane, as with her friend, I am sure it would have been dealt with in the same manner as with her friend. To say that I did not believe her comments, when I believed what her friend had to say is not reasonable.

Another point that concerns me is that if I put my signature to the letter as it stands, I leave myself open to being sued for neglect or some other cooked charge.

In regard to the statement that I failed to arrange counselling, this is nonsense as her friend was already receiving counselling from Susan Reece and this would have been available to JD for the asking.

I am sorry that these comments of mine are of no help to the demise the Army is in, but this is how I recall the situation.

As a father of four and as a concerned Salvationist I was and am disgusted with the behaviour of the late John Lane and I am terribly sorry that JD was also a victim.

Yours in Christ,

*Stan Everitt*
