The manager
Gill Home

Dear Major,

In regard to your conversation with my husband, re payment for
At the moment it is not convenient for us to help. My husband's brother died almost a year ago & his wife gets \$25. per week for self & two children & we systematically help them, & as my husband has only a minor position on the Railway this is all we can do.

We do appreciate the fact that you are trying to alter the "General ideas" of the home. I am sure Col Carpenter's idea in sending you some one new to the work was that person would have grown you uninfluenced by former methods. Unfortunately the management staff relationship at the Gill has left much to be desired. I am sure under your wise management this too will be rectified.

May God bless you in your work.

Yours Sincerely

R. Randall
