

"Astolat",

Bourke Street,

Goulburn. June 14th. 1940.

This is to certify that I have inspected the Gill Memorial Home for Boys and find that it is most ideally situated. It is managed by Major Batten and his wife, who is a fully qualified nurse, in an excellent and efficient manner.

The sanitary arrangements are all that could be desired.

The arrangements concerning the bedding and the drying of such are modern and hygienic.

There is no infectious disease amongst the children. There is a sick bay and proper arrangements for nursing and medical attention have been made.

In fact I cannot recommend any improvements as the whole place is run in a most efficient manner.
