Dear Envoy

Complaint - Welfare worker

We have received a request from Colonel Martin to investigate complaints being made concerning a male worker at the welfare centre, and his alleged interest in a little girl whose house he continues to visit. There are other comments being made too about paedophile behaviour.

Can we have a typed report about this matter, assuming of course, that the information referred to in this letter can be related to someone known to you.

We will appreciate receiving a response in due course.

With thanks.

Yours sincerely

Stan Everitt
(Lieut Colonel)
