- Probably written by the social worker with some help me
- 1977 started & was there as the manager
- Took over from Matt Kopp & think he took over for Lawler
  
- Knew Lawler to say hello to
  
- He had good standing in the district & no staff had complaints about him
  
- Just B4 we started, the govt introduced SW for the boys. A SW from each district the boy came from, we also had 2 psychologists from Child Guidance Clinic.
  
- By the time he took over it had changed & there was a lot more departmental intervention than there may have been in the 60's.
  
- Never had complaints to him of sexual behaviour from the boys
  
- had 1 complaint from a boy as to a CCW & complaint of sexual approach
  
- No complaints @ sexual behaviour of the officers
  
- Local his wife saw the boys
