Dear Sir,

I write this letter to let you know what I have endured all my life as a result of being placed in a boys home at Box Hill run by the Salvation Army.

I have lived the nightmare of the treatment given to me during that time from bashings by the officers to sexual attacks and can never forgive so it is my full intention to take this to the media and expose the system how many lives were destroyed by the Salvation Army and the lack of screening of the officers concerned.

The year was 1964 and the home was Box Hill, I was in Howard house. The officers to name some were a Sgt REDACTED Sgt Ferguson, Sgt Wilson and many more. The school teachers were also cruel and enjoyed there punishment on the children and all the above should never have happened. My life has been a difficult road to travel through the above and I think the public would like to hear about it.

Yours Truly D Green.....

Please reply as to your intention
