Phil,

re: David and [REDA] Green. ( your reference 2/2439 of 4 October).

Thank you for the reports, and your summary.

As discussed briefly with you, I would like to see us undertake one further step in the process, before negotiations are opened up with S and G, and that is the desirability of having a further assessment made, which considers both the severity and the impact of the alleged abuse, and which translates into an amount of financial compensation that we would attempt to hold to, in any negotiations.

I would like to discuss with you how we might go about that, in Victoria, as we did successfully in WA.

Graham.
