Phil,

The following email has been received by us:

"hello my name is david green and i live in pakenham vic. my phone number is REDACT

on the 20.8.70 I was charged by police for larceny as a servant and given probation, my probation officer was brig wally bryant. He got me out of bourke st west lockup. On the 11.6.71 brig bryant breached my probation with the excuse of absence. I make the claim that was true as I feared going near him as he had attempted to molest me and made threats that if i did not comply he would breach my probation. I now ask the salvation Army to please explain as I am trying to put my life into prospective. His actions caused me another charge of breaching probation and I should not have to wear that. These dates are coming from a document i have from federal police records.

please reply as i have intent to make public"
