3rd September

Dear Andrew,

I write as a result of a visit made to me this morning by Mrs REDACTED.

She reports:

- that BLD is finding it difficult to be the object of what he feels to be special attention in terms of visits, phone-calls, & invitations. He just wants to be treated like anybody else, needs space, & does not know how to deal with additional attention. Suggest it is causing difficulties with our pupils.
- that she wrote on the 6th August saying that her unit would deal with the matter, as it appears not to have done.
- that BLD himself asked her to see me about it, so she did this morning.

I must ask:

- that BLD is not in any way singled out
- that your report briefly to Mrs REDACTED of 6/8/91, indicating

That you will indeed comply with her
request (copy to re please).

We should talk about the matter once you have
written the letter. It should be signed if that
could be done immediately this week in order
to set Mrs. REDACTED's mind at rest.

Yours sincerely,

Sundin
