Brief of Evidence Submitted for Non Authorisation - Accused,
CDJ [REDACTED] (REDACTED 1979) Sexual Penetration Child Under 16 years
Care/ Supervision.

Glen,

I have checked the brief of evidence, submitted against the accused, CDJ [REDACTED] (REDACTED 1979) by Senior Constable JARSKIS and read her thorough and comprehensive report submitted recommending the non-authorisation of the subject brief. I have also taken into account your recommendations in your covering report and agree with your assertions and conclusion.

As a result I concur with S/C JARSKIS' and your recommendation that the brief of evidence against the accused should be non- authorised due to insufficient evidence and the little likelihood of a successful prosecution. I also make comment that S/C JARSKI should be commended on the excellent standard of the brief of evidence submitted and the thorough and professional manner she conducted the investigation.

Could you please notify the relevant parties of the outcome of the investigation and ensure the CDEB records are updated.
