Dear Sir,

Many thanks for your letter of the 15th Dec. 1965, I must apologize for the delay in answering, however let me assure you I do appreciate the seriousness of the matter and thank you for your interest and readily acknowledge your anxiety.

By now you will know that the " Cottage Father" is in residence and I am confident that his presence in the Cottage will ensure stricter discipline along this line and that such a repetition will never occur again. I have shared the strong feelings I have on this matter with my staff and they have promised me complete co-operation in this regard.

It is a continual worry to me that our " Copy Book" has been blotted, but trust that this incident will not become public nor colour the record that this Home has with the boys we care for, your government or the public who so readily support us in Western Australia.

Once again many thanks for your personal interest and help.

Yours faithfully

J. Sumsion  
Manager
