RESULT OF INQUIRY Insufficient Evidence to Proceed

A/DETECTIVE SENIOR SERGEANT FRENCH

The complainant in this matter is a 37 year old man. The offences are alleged to have occurred whilst he was a young boy in the care of the Christian Brothers Order at their institution at Castledare between 1964 and 1968.

It is alleged that there were between ten and twenty occasions when the suspect went to the complainants bed at night, took the complainants clothes off and rubbed himself against him.

On April 11, 1994 he attended the Child Abuse Unit and made a complaint regarding these matters and a statement was obtained.

On May 23, 1994 DICK was interviewed in the presence of a solicitor. The allegations were put to him but he declined to answer any questions in relation to them.

DICK has previously been convicted for committing offences of a similar nature at Castledare, against persons unknown. It is possible that some of the offences for which he has been convicted and those disclosed by the complainant are the same. There is therefore a risk that should DICK be charged in relation to the complainants allegations he may be twice convicted for the same offence.

In view of this and the Director of Public Prosecutions stated position on these matters there is insufficient evidence to proceed with charges.

The complainant has been advised of the result.

Forwarded for your information.
