October 23 2002

Dear Brothers,

In my letter dated October 13 2002, I spoke about how my father has abused my two sisters [BCG] and [BCL]. [BCL] has spoken to me about what my father did to her and because this matter has not been dealt with - I feel I have an obligation to let you know what she told me. She mentioned that he used to make her take a shower with him and forced her wash his private parts for him. She is thoroughly disgusted with him and his behavior. I am convinced that if these things had not of happened to my sister [BCL] she would not be in the position she is in today, being an unwed mother of three.

Also in my letter dated October 13 2002, I spoke of an incident that happened to myself in 1978, at an International Convention here in Sydney. We were camping in the show grounds. I have made a statement to the police concerning this incident. This matter also has never been dealt with by the brothers - that I am aware of, and it was of a similar nature to what happened to [BCL]. If you would like a copy of this police statement - please let me know.

I hope this information will be of assistance in keeping Jehovah's congregations clean and protected from destructive and damaging influences.

Yours sincerely,

BCK
