Dear Yogasandhan, Thank you very much for contacting me. I am not a great user of Facebook,so only just found the original letter this weekend. I will reread your letter later and would like to send you my individual story as we all probably will so that you can understand the depth of feeling we all have towards our treatment by Satyananda ashram...which was our home at the time ,after the abuse came to light. It was a terrible disregard of duty of care by the Ashram, not to mention the ethical concerns it brings up. You are right,it is very difficult for us to believe that this will be dealt with in a meaningful way as there has never been the slightest thought given to us since we were shuffled out of the way or just kicked out on pour backsides

. Reading your words has however given me hope. I will be in contact soon. Kind Regards,

APV
