CAREER AMBITIONS

To successfully complete a travelling experience where I can learn about the different cultures of the world and experience them first hand.

To work with kids and help them to experience life, love and friendships in an environment where there are no walls or boundaries.

WORK EXPERIENCE

This year I flew to America to work at a summer camp as a Cabin Counsellor in Virginia. Sadly I had to come home early because of a personal family matter. I plan on returning next summer for the full 3 months!

I have been a youth leader for over 7 years and ran a youth group for 8 months.

Some of the roles involved were organising indoor and outdoor games, group activities, arts and crafts as well as reading and teaching kids from books.

I also worked as a youth leader whilst at a yearly week-long camp, where I worked with a team of leaders organising anywhere from 20-50 kids.
