

3 March 2011

Mr Moshe Khan
C/- Chabad Youth

Dear Moshe

Re: Ezzy Kestecher

As you know Ezzy was referred to SECASA for assessment in January 2008. He engaged in a counselling relationship and attended regularly until December 2009. During this time numerous issues related to childhood, identity, and future plans were worked through.

I recently had a lengthy phone conversation with Ezzy following further referral from you in regard to reports of suicidal ideation, which occurred a number of months ago.

In my professional opinion, Ezzy is not at risk to himself or to anyone else. I have no concerns with him continuing to have a role with Chabad Youth.

Yours sincerely

Mary Mass
