Dear Mr Giugni,

By way of introduction, I am responding to this email because I have written our Child Protection Policies, I coordinate staff training in this area, including bringing in external experts and also I meet with each staff member weekly to insure proficiency in many areas, including this one.

As you will see in our submission, our school has made great strides towards child safety and creating a culture of security. The Administration has approved spending of whatever funds have been necessary to train staff and bring awareness to the entire school community about appropriate protocols to protect our students from abuse.

If there is any aspect of the submission I have not addressed satisfactorily or anything further you need in addition to what you have already ask for, please do not hesitate to contact me.

Thank you,

Gavriella Aber
