I believe redress is the next step in the lives of the Forgotten Australians it is now Seven years since our Apology and for so many the feeling is that we don't matter or what we went through.

Since the time we where put into care it has stayed with us all 7days a week 24/7 365days of the year there is not a day that goes by that I myself can't fully forget the windows never seem to close weather it it a smell or a place or just the way some people treat you.

Even filling in forms for me every time I see are you know as any other names it sets me feeling sad and takes me right back again.

The Redress will never take away the pain but it will give a sense of worth money never last long but to be validated and know that the evidence that I myself gave to the Royal commission may have been heard.

I'm very happy for this to be public,
