what about the rest of us? molested by family and friends????

i emailed to police when i finally had the confidence to do so.

and after all that , no I.r # was recorded by police , the detective wrote on my file that i was only reporting it for criminal compensation. he wrote on my file that i obviously had mental health issues.

i doubt i was [REDACTED] only victim, [REDACTED] a pathological liar, narcissist and a career criminal, [REDACTED] i have a friend who came in contact with [REDACTED] they won't talk to police, i did, and got no where.

i have been diagnosed with fatigue syndrome p.t.s.d and fiber mylgia, iv dropped out of doing a masters degree due to panic attacks over grammar and alap referencing.

my life was destroyed by the patriarchal system and those who exploit it.
